

8 SEP 1953

BUILDING STATISTICS - TASMANIA - JUNE QUARTER 1953.

The Deputy Commonwealth Statistician (Mr. J. C. Stephen) has made available the following particulars of Building Statistics for the quarter ended June, 1953, together with comparable data for preceding periods.

1. DEFINITIONS OF TERMS USED.

A statement of definitions of terms used will be found on page 11.

2. SUMMARY FOR QUARTER ENDED 30th JUNE, 1953.

Statistics of building operations for the quarter ended June 1953

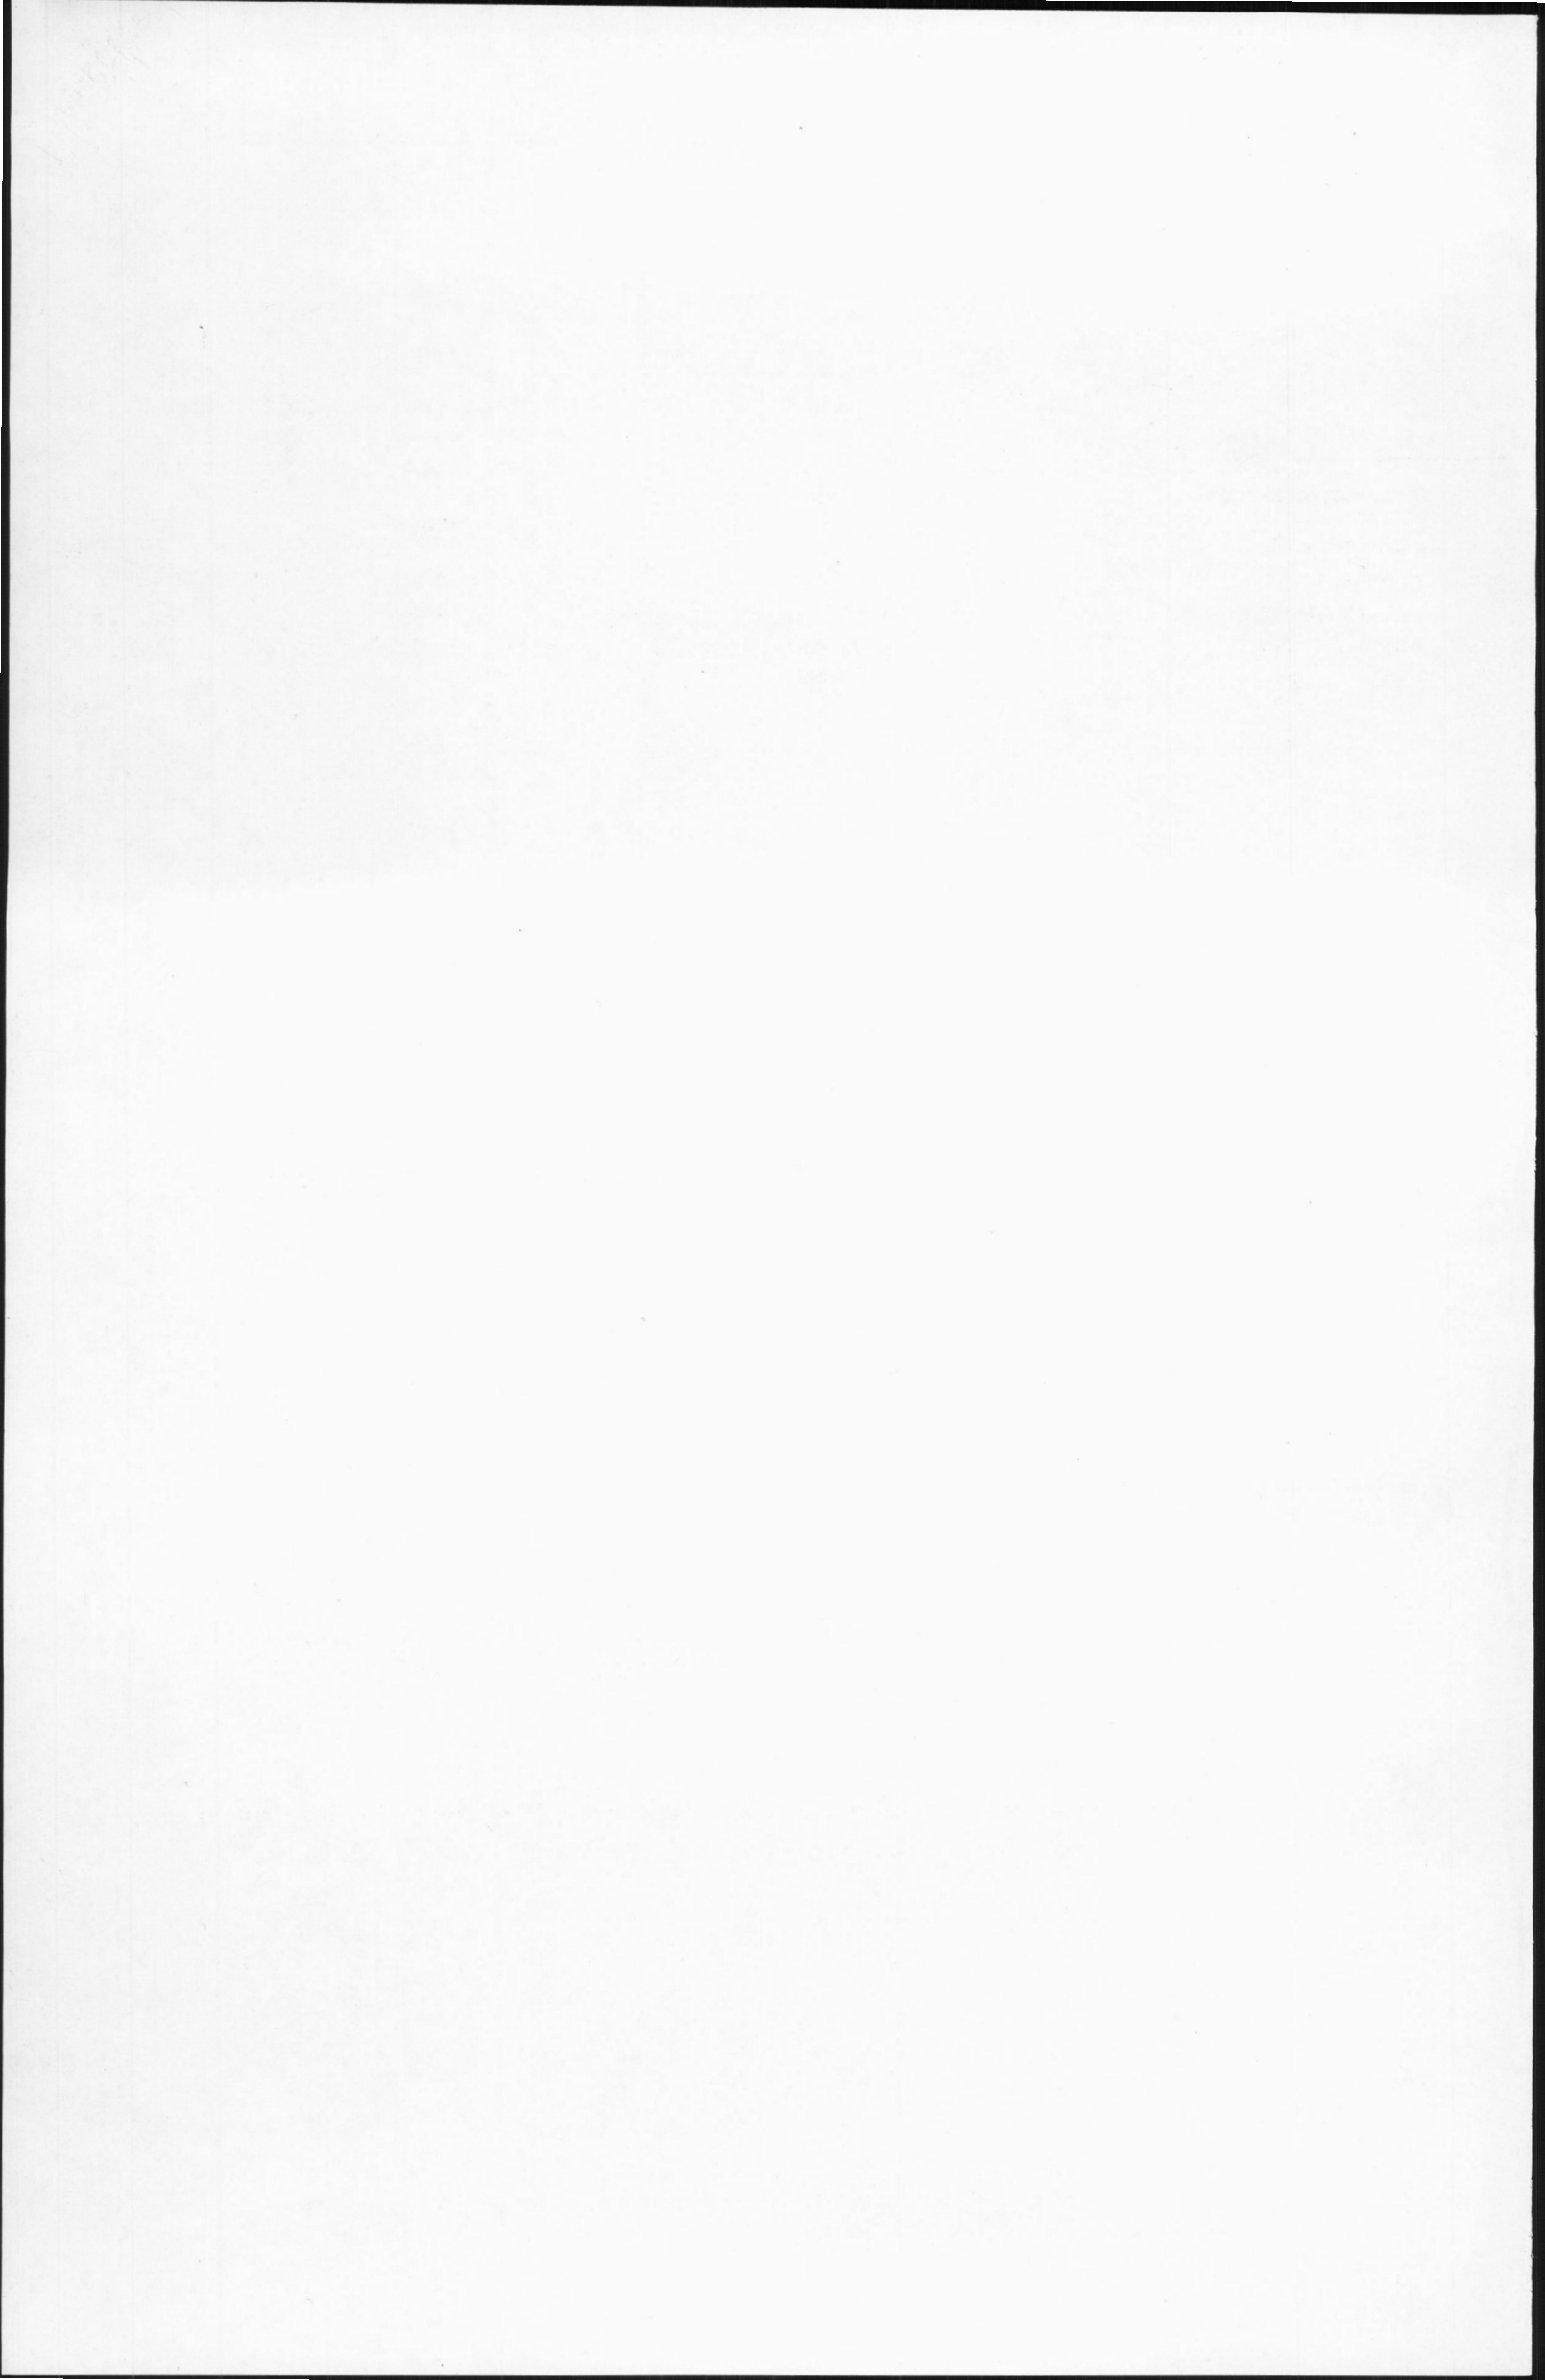

show that:-

1. The number of houses commenced and under construction declined whilst the number completed showed a slight increase. (see table page 3).
2. The value of new buildings (other than houses) commenced and completed showed an increase whilst the value of those under construction continued to fall. (see table page 3).
3. The value of work done on all new buildings (including houses) during June quarter 1953 increased by £297,000 but this value is still low compared with quarterly figures for 1951 and 1952. (see Summary table page 9)

		Builders'		Other Buildings	409
		Labourers	1,133	Repairs & Maintenance(b)	368
		Others	556		
Total	5,930	Total	5,930	Total	5,930

(a) Includes estimate for persons working on owner-built jobs.

(b) Excludes principals and their employees engaged solely on alterations additions and maintenance work.

3. NEW HOUSES.

1. NEW HOUSES COMPLETED.

During the quarter ended 30th June, 1953, 718 new houses were completed in Tasmania, compared with 704 in the March quarter 1953, and 983 in the December quarter 1952. The number of completions in the June quarter in preceding years is as follows:- 163 in 1946; 293 in 1947; 403 in 1948; 589 in 1949; 805 in 1950; 1,040 in 1951 and 887 in 1952.

For the year 1952-53, 3,314 houses were completed, compared with 3,999 in 1951-52 and is the lowest number of completions since 1949-50. The number of completions in previous years were:- 479 in 1945-46; 1,070 in 1946-47; 1,544 in 1947-48; 2,287 in 1948-49; 2,852 in 1949-50; 3,914 in 1950-51 and 3,999 in 1951-52.

During the quarter, 6 new dwellings were provided by the construction of flats and shops with dwellings.

The 718 new houses completed during the June quarter 1953 comprised 131 solid brick concrete etc., 50 brick, concrete etc., veneer, 398 wood; 100 prefabricated wood, 38 fibro-cement, and 1 other type of house. Of the 19,459 houses completed since September 1945, 4,853 or 24.9% were of brick, concrete etc., and 14,606 or 75.1% of wood, etc., material.

The average recorded value of each house completed in Tasmania during the June quarter 1953, was £3,116 for brick, concrete etc., £2,134 for each house of wood and £1,589 for each fibro-cement house.

The corresponding values in March quarter 1953 were £3,313 for brick, concrete etc., £2,077 for wood and £1,911 for fibro-cement.

2. NEW HOUSES COMMENCED.

The number of new houses commenced during the June quarter 1953 was 524. This is 71 or 10.2% less than in the March quarter 1953.

Since July 1945 a total of 21,524 new houses has been commenced in Tasmania.

NEW HOUSES UNDER CONSTRUCTION:

The number of houses under construction at 30th June, 1953, was 2,114 a decrease of 194 compared with the March quarter 1953 figure of 2,308. Corresponding figures as at 30th June in preceding years are as follows:- 1952-3, 1,43; 1951 - 3,558; 1950-3,357; 1949-2,575; 1948-2,065; 1947-1,557; and 1946-1,013. The houses under construction at 30th June, 1953 were distributed according to materials of outer walls as follows:- Solid brick, concrete etc., 521 (24.6%); veneers 211 (10.0%); wood 1,111 (52.6%); prefabricated wood 178 (8.4%); and fibro-cement 93 (4.4%).

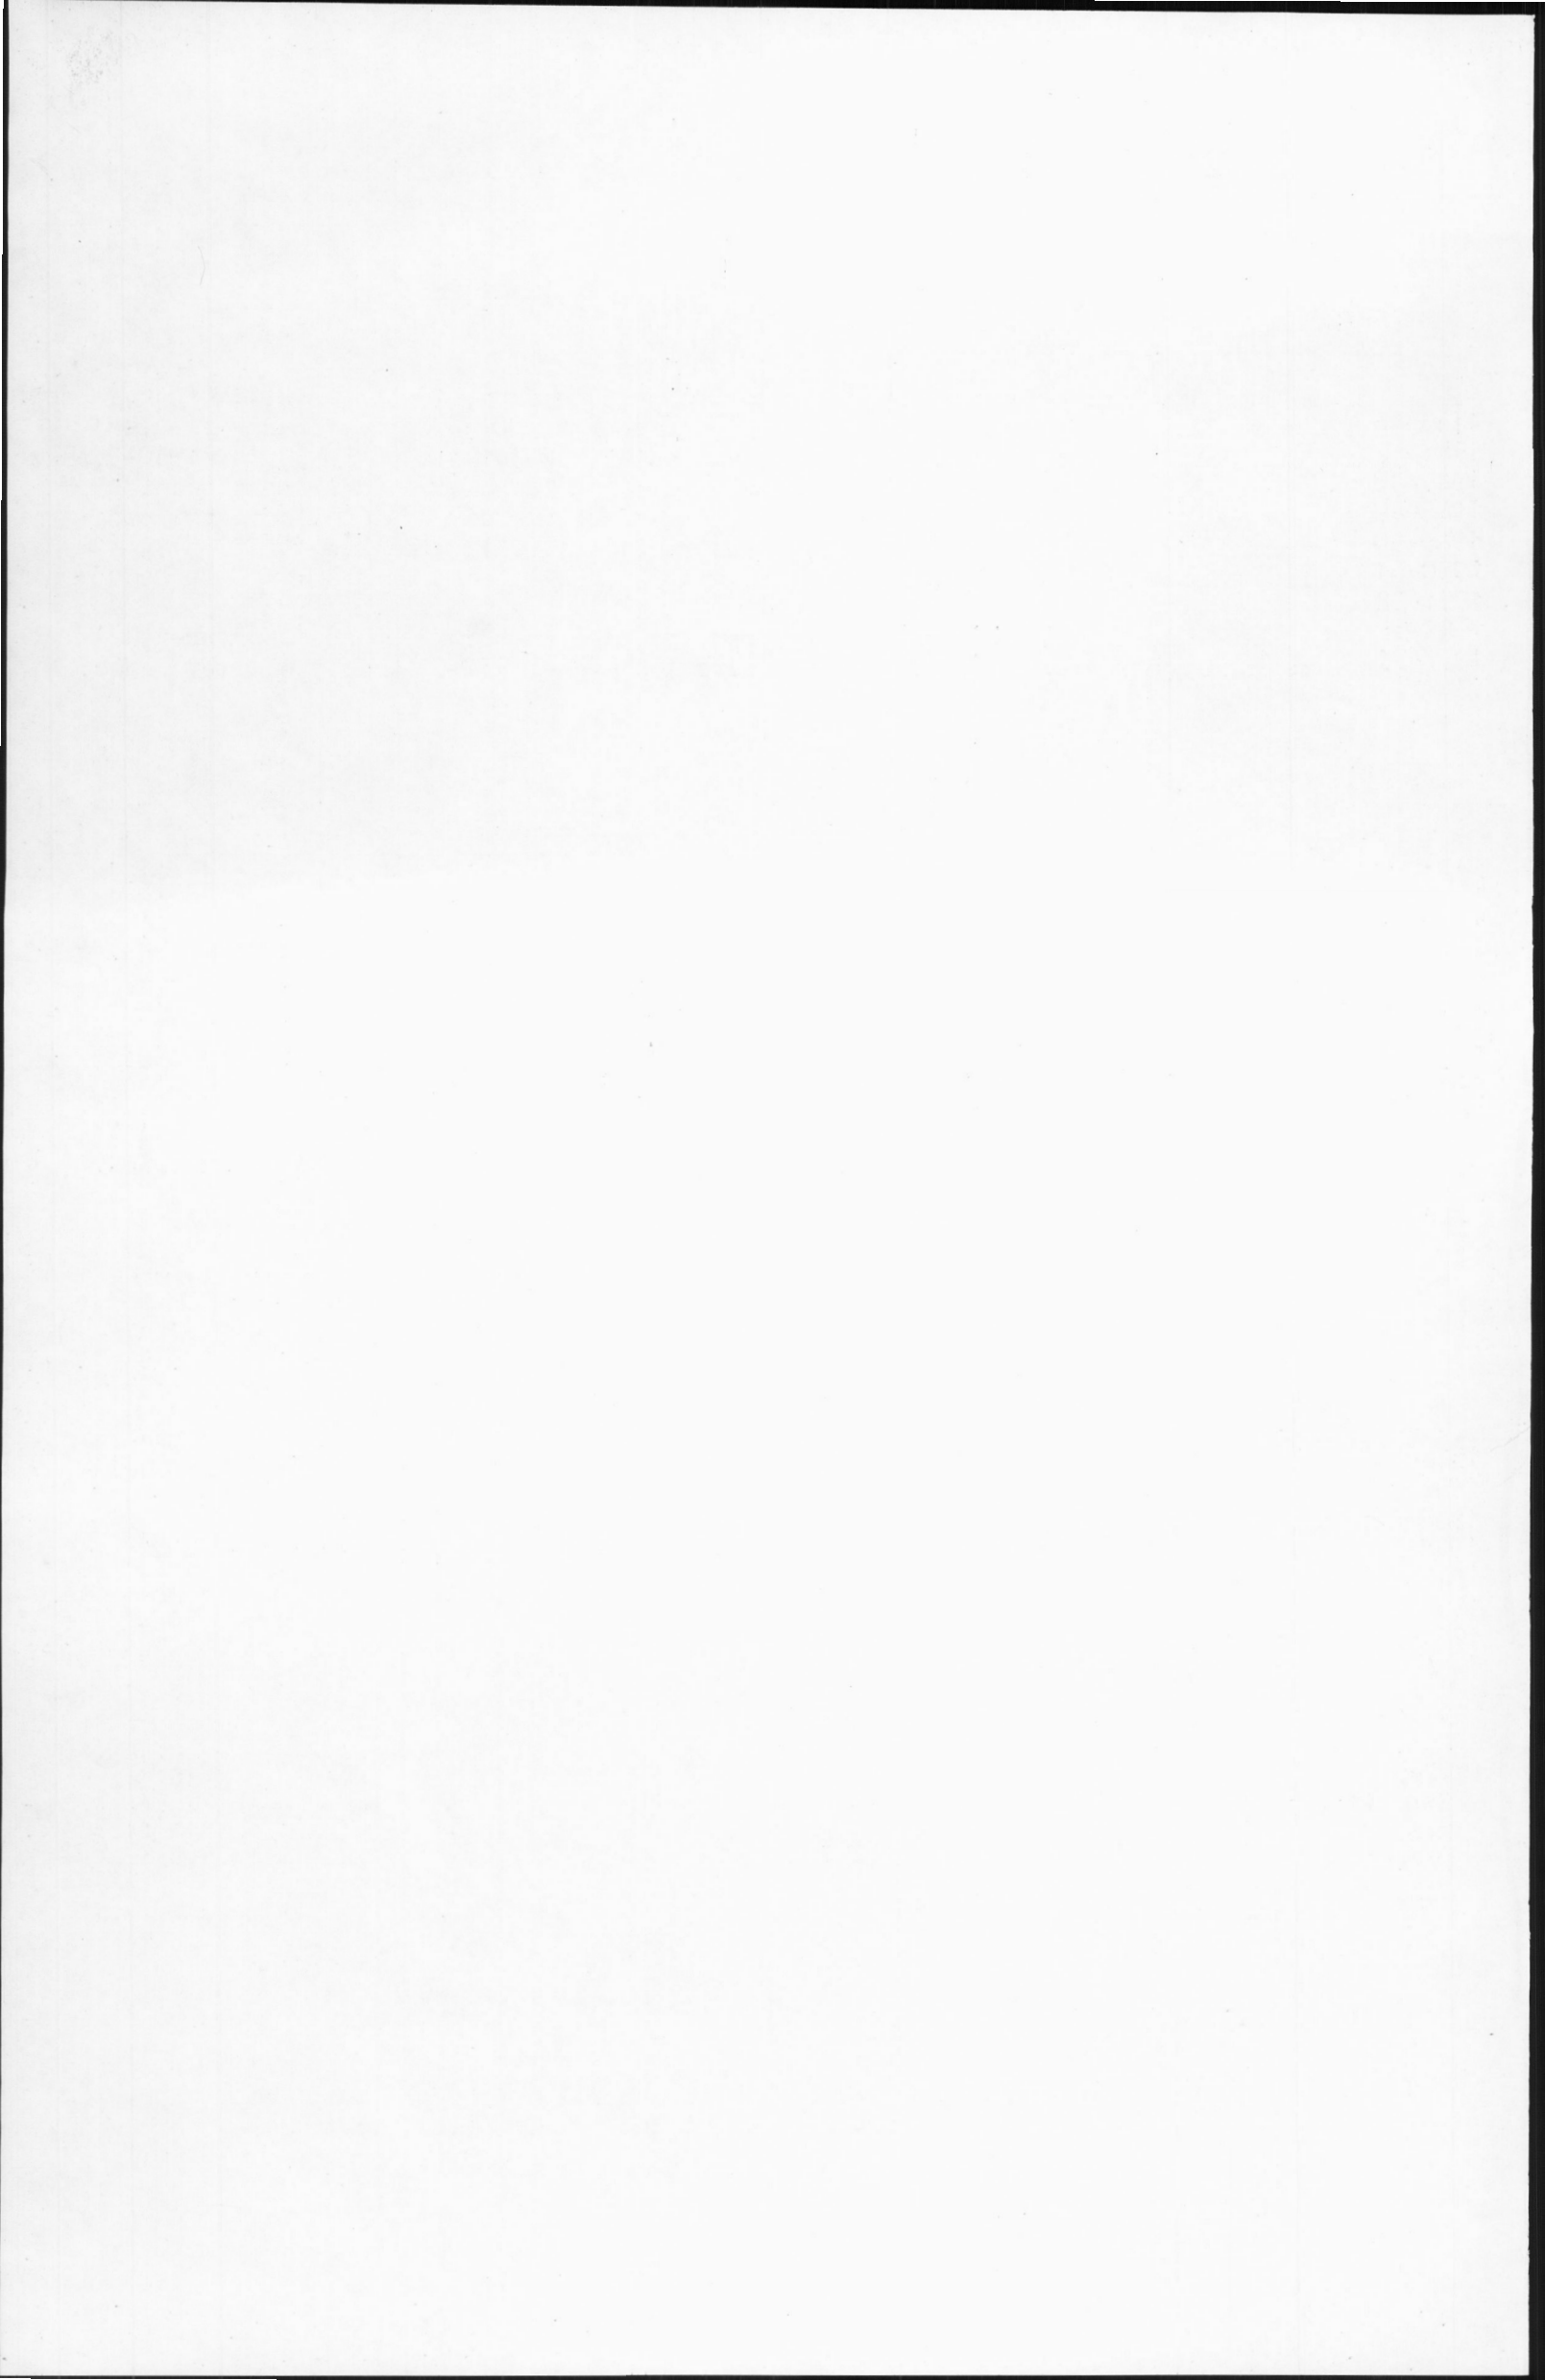

The following table shows in summary form, the number of houses commenced, completed and under construction for the years 1945-46 - 1952-53 and by quarters since 1950-51.

NEW HOUSES - TASMANIA.

PERIOD	Commenced		Completed		Under Construct- ion at end of Period.

NEW BUILDINGS (OTHER THAN HOUSES).

Note: Values quoted exclude the cost of land on which buildings are erected.

The value of new buildings (other than houses) completed during June quarter 1953 was £914,000 compared with £772,000 during March quarter 1953 and £549,000 during June quarter 1952. Ten new factories valued at £198,000 were completed during the quarter.

During the June quarter 1953 the value of new buildings (other than houses) commenced was £353,000 compared with £315,000 in March quarter 1953 and £1,263,000 in the corresponding period in 1952. Construction of three new factories valued at £88,000 was commenced during June quarter 1953.

The value of new buildings (other than houses) under construction at 30th. June 1953 was £5,196,000 which is the lowest recorded value of buildings under construction since 30th June 1951. Comparative values as at 30th June in preceding years are as follows:- 1952 - £6,550,000; 1951 - £5,088,000; 1950 - £3,338,000; 1949 - £2,070,000; 1948 - £1,404,000; 1947 - £957,000; and 1946 - £337,000. The value of factories under construction at 30th June 1953 was £1,816,000 or 34.9% of the total value of all buildings (other than houses) under construction at that date.

Progress made in the construction of new buildings (other than houses) is shown on the following tables:-

VALUE OF ALL BUILDINGS.

The value of all new building (including houses) completed in Tasmania during June quarter 1953 was £2,603,000 an increase of £108,000 compared with March quarter 1953, and £171,000 more than the June quarter 1952 figure of £2,432,000. New houses valued at £1,689,000 comprised 64.9% of the total value of completions during June quarter 1953.

The value of new buildings commenced during June quarter 1953 was £1,633,000 a decrease of £300,000 compared with March quarter 1952 and £1,152,000 less than June quarter 1952.

The value of new buildings under construction at 30th June, 1953, was £10,494,000 which is £887,000 less than at 31st March, 1953. The corresponding value at 30th June 1952 was £ ,770,000.

In comparing these values due allowance should be made for any movement in building costs.

The following table summarises the value of all new buildings commenced, completed and under construction since 30th June, 1946.

6. VALUE OF WORK DONE ON NEW BUILDINGS.

The value of work done on new buildings has been calculated from data collected on builders' returns. According to the information recorded on the returns, the value of work done during June quarter 1953 on new buildings was £2,591,000 compared with £2,294,000 in March quarter 1953, £2,555,000 in December quarter 1952 and £2,822,000 in September quarter 1952. Of the June quarter 1953 total £1,745,000 or 67.3% represented value of work done in respect of houses, Hobart and Suburbs accounted for £1,154,000 or 44.5% of the total value, Launceston and Suburbs for £473,000 or 18.3% and the rest of the State for £964,000 or 37.2%.

For details of June quarter 1953 and comparative statements showing figures for each quarter since June 1951 see the following page:-

7. PERSONS WORKING ON NEW BUILDINGS.

Note: The figures quoted below include estimates for persons working on owner-built houses, but exclude principals and their employees engaged solely on alterations and additions.

There were 5,930 persons including 1,377 working principals engaged on the construction of new buildings at 30th June 1953. Of these 2,994 were carpenters by trade, 396 bricklayers and 1,133 builders' labourers.

The number of persons engaged at 30th June each year is as follows:-
1946 - 2,514; 1947 - 3,639; 1948 - 4,296; 1949 - 5,570; 1950 - 6,430; 1951 - 7,520; 1952 - 6,017; and 1953 - 5,930. Of the latter number 4,399 were working on private contract jobs, 750 on owner built houses and 781 on Government day labour projects. The returns indicate that 2,786 were working on new houses, 1,761 on other new buildings, 606 on alterations and additions to houses, 409 on alterations and additions to other buildings and 368 on repair and maintenance works.

Details of the number of workers classified according to type of occupation at 30th June, 1946 and later dates are as follows:-

(a) Actually working on jobs.

8. DEFINITIONS OF TERMS USED.

Owner-Builder: For the purpose of this Bulletin, an owner-builder is a person who is actually building his own house or is having his house built under his own direction without the services of a Contractor.

Commenced: A building is regarded as having been commenced when work on foundations has begun. Owing to the difficulty of defining the exact point that this represents in building operations, it is probable that interpretations placed upon it by informants are not entirely uniform.

Completed: A building is regarded as having been completed when the builder has fulfilled the terms of the contract. As with commencements, the interpretations placed upon this definition may vary.

Under Construction: A building remaining uncompleted at the end of a period is regarded as being under construction regardless of whether construction was actively proceeding on that particular date.

Employment: The figures of employment relate to persons actually working on new buildings on a specified day. They include working principals, employees, men working as, or for, sub-contractors and men temporarily laid off on account of weather. In addition, they include some employees engaged on alterations, additions, renovations or repairs to buildings when these jobs are undertaken by a contractor who builds new buildings. The figures include estimates for persons working on owner-built houses.

Values: All values shown exclude the value of land and represent the estimated value of buildings on completion.

All figures in this Bulletin relate to the operations of private contractors, Government Authorities and owner-builders.

Figures relate only to the operations of persons who build new buildings.

Alterations, additions, renovations and repairs to buildings are excluded, because of the difficulty in obtaining complete lists of persons who engage in these operations.

Figures for houses exclude converted military huts, flats, and shop dwellings. Some houses built on farms are excluded but these do not affect the figures materially.
